Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Square D
Product function	A surge protection device (SPD), also known as a surge protector or surge suppressor, is used to protect electronic equipment from damage caused by power surges or voltage spikes. These devices limit the voltage supplied to a device by either blocking or shorting to ground any unwanted voltages above a safe threshold
Product reference	QO2175SB
Additional similar product references	QO2175SB
Total representative product mass	127.07 g
Representative product dimensions	40.64mm x 137.16mm x 76.2mm
Accessories	N/A
Date of information release	08-2026

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
In case of special transportation: transportation method	N/A
Recyclability potential	14% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
